

14. Riesa Dancesport Festival 2010

Championships - Weltmeisterschaften / Cups

09.10.2010

No internet connection in the erdgas arena in 2010

This year there will be no free internet connection available in the venue erdgas arena!

Due to the downloading of various music titles by our guests while staying in the erdgas arena during the two competition weeks 2009 the FVG-Riesa was charged by the music-companies afterwards for downloading unpaid music inclusive rather high penalties.

Therefore the FVG Riesa decided not to offer this free internet service again, which is totally understandable.

If your need internet access we suggest to buy a web'n'-walk stick at German Telekom or Vodafone. In some of the hotels you can also get access to Telekom or Vodafone providers by buying time slots for hours and/or days. Please check with the hotel you are staying.
